kinds of Wax and Cement are equally disagreeable and uncertain in scaling.

In presenting these articles to the public, the inventor challenges the world in an infallible, simple, easy and rapid process of Hormeteal Sealing.

All scientific and practical men who have examined them say they are without a fault, and are the only ones that have stood the chemical test.

The scaling is on an entirely original plan. This principle has stood the test for several years, and the best certificate of their value is, that those who have tried these articles will use no other.

They are warranted as represented.

THE CAUSE OF THE REBEL INVASION.

The Richmond Examiner of Sept. 12 has an article which shows that the general Northern movement of the rebel army, both East and West, is due in part at least to the scarcity of food at the South, and the necessity of getting is somewhere. The Examiner remarks as fol-

"The grain growing and provision raising ountry which stretches from the Potomic at Harper's Ferry to Memphis on the Tennosee is now exhausted of its provisions. The similer of the Fouth have consumed everything in the central portion of it; and the joint stunes of the two beligerent powers have consumed the sup-plies of the extremes. Much of the prodec-tive portions of North Carolina and the Gulf States have been also exhausted, and the general scarcity of all sorts of supplies is attested by the high prices of everything estable. Wheat is worth two dollars and a half at Bristol, it the heart of a fine wheat country, and cattle are bringing seven tents gross in Southwestern Virginia, the chief cattle raising region for the whole South. Pork is not to be engaged now of the Pork raisers of East Tennessee at twentyfive cents, though one-fourth of that figure has always been thought a good price after it had renched the markets of consumption. Hay which used to be difficult of sale at fifty cents a handred in the interior, now cannot be obtained in sufficient quantities to supply the demand at two dollars. Every article of farm produce has your up to these falakous prices, and the ready forment of these tempting rates has exhausted the farming regions of the South of their supplies. High prices now no longer command, in require quantities, the firm staples of the com-

The fact has resulted from the circumstance that a comparatively limited region of country has been compelled to support not only its own requisition, but also the armies both of friend and for. The extraostation which has resulted is aimest complete as is shown by the fact that while a dozen eggs may be produced for three easts in Boston, they readily command a dollar in Michigonal. As our armies have now advanred into Kentucky and Maryland, this scarcity of food will be relieved to the extent of the army supplies : but the exhaustation is so absolute sale to their accordonard rates.

There are two sources only from which govreceivery for their support. The first source is the cotton country, in which unusual areas, heretofore devoted to cotton, are said to have been sown and planted in grain. It may almost be assumed that, in respect to grain, this source of supply will be ample for the emergency. But the rearing of animals cannot be in-creaxed with the same rapidity as that of grain crops, and the conton country will remain still longer 2 consoner of means rather than a many control of the conton country will remain still longer 2 consoner of means rather than a many control of the conton country will remain still longer 2 consoner of means rather than a many control of the conton country will remain still be the conton country will remain still longer 2 consoner of means rather than a many country will remain still be the conton country will remain still be the country will be the conton country will remain still be the conton country will be the conton countr eger 2 consumer of meats rather than a producer. The deficiency in cattle might possibly have been made up from Texas and probably

and Hardee, Buckner and Chestaliam to move the heavy columns to the banks of the Ohio and the enemy may have time, from the prolific Northwest, to throw considerable armies in their path. The campaign in Kentucky is not only for securing another State to the Confeder-, but for meat and bread, and must partake of those delays incident to vast and important undertakings.

COMMANDER PREBLE. Commander George Henry Preble who, list been summarily dismissed from the naval service for "permitting the armed steamer Ovieto to rin the Mockado," is one of the most intelligent and capable officers in the navy. The Difference—An old army officer gives the reason the regulars endure more frigue than rounteers : When marching, if the regular even cuts his linger, he falls to the rear and applies a landage. The moment he halts for the night after ire eats his rations, his cheek is upon his knapesek and himself in the had of dreams. The volunteer does very differently. MADAME ZADOC PORTER'S Curative
Hateam is warranted if used according to the directions, to cure in all cases, Coughs, Colds, Whooping
Coughs, Asthess, and all affections of the Threat and
Lungs.

WADAME ZADOC PORTER'S BALSAM is prepared with all the requisite care and skill, from a combination of the best remedies the vegetable king-dom affects. Its remediad qualities are based on its power to assist the healthy and vigorous circuitation of the blood, through the lumps. It is not a violent remedy, but emotified, warming, searching and effective; can be taken by the oldest person or yourgest child.

WADAME ZADOC FORTER'S BALSAM
has been seed by the public for over 18 years, and has

by those who have used it, so their afficited friends and others.

**MOST IMPORTANT — MADAME ZADOC PORTERS CENTIVE BULLAM is sold at a price which brings it in the reach of every one to keep it convenient for use. The linely use of a single bottle will prove to be worth 100 times its cost.

**MOTICE — SAVE YOUR MONEY!! — Do not be perunded to purchase at its to 2!, which do not contain the virtues of a Dime Bottle of Madame Porter's Curative Belleam, the cost of manufacturing which is a great at that of almost any other medicine; and the very low price at which it is sold, makes the profit to the seller apparently small, and unprincipled dealers will sometimes recommend other medicines on which their profits are karger, unless the customers missi upon having Madame Porter's and none other. Ask for Malame Porter's Curative Belsam, price to etcs, and in large bottles at 20 cts, and take no other. If you cannot get it at one store you can at another.
